

Our Offer

To whomever it may concern,

V distributor in import, export and sales of international products is now about to launch renewable energy sources and is inviting your company to participate in its distribution on Polish soil.

Our offer includes:

- Available site for product exposition with the possibility to distribute your products all over Poland.
- Furthermore, we promote advertisement and marketing for your products.
- We have qualified and educated staff which offer secure assembly services.
- Likewise, we assess the conditions and measurements before installing your product with a full financial analysis for our clients.

We have years of experience in sales and product release on the Polish market, with professional knowledge regarding import and export procedures.

Handling and transportation support. We possess many offices and a store-room available in the central part of Poland near highway A2.

The exact location of the exposition site is shown on the map located in the proximity of Warsaw Airport Okęcie (about 15km).

We strongly believe in professionalism, high quality of service and utmost confidence. Open for business discussions and negotiation.
